**Question 1 –**

On pages 85 and 87 of the Draft RFP the section on past performance reads as follows:

- 1) **A list of not more than four (4) relevant contracts (government and/or industry contracts), each in excess of \$10,000,000 total contract value for the prime and each in excess of \$3,000,000 total contract value for the major subcontractor, received in the past five (5) years, or currently on-going, involving types of related effort.**

We believe the word 'received' should be replaced with 'completed'. Because most federal contracts are five years long, the current wording would exclude recently completed contracts and offerors would only be able to use on-going contracts as references. The language would need to change on pages 85 and 87.

**Answer 1 –** We have considered the request and decided to change "received" to "completed" in the referenced paragraphs in the final RFP; however we have also changed "in the past 5 years" to "in the past 3 years" to limit references to more relevant time spans.
